Our Philosophy

We are enraptured by love stories

you have a unique one to tell

At heart, we are storytellers as the most beautiful moments are rarely posed. They live in the glances, the tears and the laughter that catches you off guard.

Blending *documentary* and *editorial* styles, our work balances curation, gentle guidance and letting moments unfold naturally. The result is *dreamy, intentional and deeply personal, always rooted in genuine emotion.*

Documenting love is built on trust, something we hold dearly. Above all, your wedding is about you. We want you to feel at ease, seen and beautifully celebrated through our lens.

Our Story

Natasha Kasim Photography (NKP) began as a one-woman show in 2020. Seeing a missing piece in the Malay wedding photography industry, Natasha set out to build the brand she would have loved as a bride: *feminine, timeless and romantic*, with your vision always at the heart of every shoot.

Over the years, serendipitous encounters with like-minded creatives have grown NKP into a team of 20+ shooters and editors. Featured in Singapore Brides, Berita Harian and Have Halal Will Travel, NKP has become a trusted name among couples and industry partners alike.

What makes us different?

We are one of the few wedding photo & video companies in Singapore with a *consistently high female representation* among our team. Paired with the artistic curation and direction of our founder, we ensure that your shots will always have a feminine touch, centred around capturing your *soft and dreamy moments* as a couple.

Our Timeline

Here at NKP, we want to make wedding planning easier for you and here is a preview of what you'll expect when you work with us for your big day.

Why Two is Better Than One

Slide 1a

Slide 1b

Slide 2a

Slide 2b

Slide 3a

Slide 3b

We believe that *two* shooters are better than *one* shooter because you can have *dual perspectives* of a scene and this helps to better tell the story of your big day. Additionally, if you would love to see candids in your wedding gallery then we definitely recommend to have a second shooter for your wedding day. Our *10, 12 & 14 hour* package comes with 2 shooters to ensure you *never miss a moment*.

Skip the Wait

We know how excited our couples are to see their wedding photos/videos! And this is why we deliver sneak peeks to all our actual day wedding clients so they don't have to wait months to see how their photos/videos turn out.

NKP PRINTS

ARTFULLY DESIGNED

Prints are more than just printed photos.

They are a reminder of why we all take photos with our loved ones - because we want to remember the moments and the milestones and pictures are the perfect way to capture that.

Our prints are thoughtfully curated and artfully designed as time capsules which can be carefully passed down through generations and pass the test of time.

Kind words

"We had the pleasure of working with Natasha Kasim Photography and photographer Nabila for our wedding, and the experience was absolutely amazing. From the very beginning, they were professional, warm, and attentive to every detail. The end results exceeded our expectations — beautifully edited, filled with genuine joy, and something we will treasure forever. We are so grateful for their dedication and talent in preserving the most important memories of our special day."

- Andrian x Sheril's Actual Day

"We're so so glad we chose NKP to capture our event. Our photographer made our entire experience over the two days a pleasant one. She was engaging and easy-going, never over-bearing and patient in getting the right shots, at the right angles. Also, we actually did not plan where to take our post-wedding shoot but the photographer made it work by working with the spaces around and near the wedding venue and helped us through the different poses. The photos came out beautifully!"

- Nabilah x Haikel's Actual Day

"Both of us are camera shy and awkward but Natasha made a point to guide us and reassure us from the start till the end! She gave many ideas from what mood and theme would suit us, keeping in mind poses that we are comfortable with! Her crew Aidil and Nisa were amazing at keeping us energised on the actual day and being so accommodating when we had some changes to our post wedding shooting details and the photos came out exactly as we envisioned capturing us in a bright and playful mood."

- Shareen x Bashir's Actual Day

"Natasha was meticulous, patient with explaining NKP's services, and never pushy. She went over my ideas and the photos I wanted, and our photographer was such a lovely person to work with! It was a smooth process despite the short duration as we had a super intimate ceremony at the mosque, and it was raining, but nonetheless we made do with what we had and we were so happy with the result! They truly know how to capture the essence and emotion of a wedding in such a dreamy and authentic way."

- Deena x Faisal's Actual Day

1. Schedule in time for preparation (getting ready) shots

We recommend to fit in 1-1.5 hrs for preparation shots + transport to the venue if your preparation room is separate from your wedding event. This gives the photographers enough time to take photos of the bride and groom getting ready.

2. Plan an outdoor shoot on your wedding day

We recommend to schedule in 1-1.5 hrs for an outdoor shoot preferably after the event or the hours can be split during the event day if you would like an outdoor shoot for more than 1 outfit.

3. Don't forget to bring your invitation card

We like to capture all the details of your wedding day such as your wedding ring, your beautiful bouquet and also your invitation card.

4. Transport Arrangement

The client will cover the transport for the shooters during the event (i.e from the preparation venue to the nikah/reception venue and the nikah/reception venue to the outdoor shoot venue. In the event that the client does not have a vehicle transport for the shooters, the client will cover the cost of grab throughout the event.

5. Shooter Deployment

We have a team of 15 shooters in our team and shooters will be deployed depending on their availability. If you prefer a female shooter you can make the request in our questionnaire and we will try our best to meet the request. The add ons for specific shooter request is $100. Requesting for Natasha (the founder) to shoot costs $300.
