Coffee that keeps you going

About Us

Generation Coffee Roasters, established in December 2020, is a company dedicated to bridging the gap between traditional and specialty coffee.

Our mission is to provide **affordable and high-quality coffee** making coffee accessible to people from all walks of life.

What started as a simple hawker stall at Tekka has now transformed to 5 outlets islandwide and now, we have introduced a **coffee cart together with our skilled baristas**.

In-House Roasting

We believe great coffee should be accessible to wherever people gather.

Since January 2024, we proudly opened our Coffee Roastery, using the Giesen W6 specialty coffee roaster to roast all our beans.

From the specialty notes of our signature Unity Blend to the bold, chocolatey soul of our Traditional Kopi, our cart is designed to ensure every guest, no matter their preference, finds their perfect cup.
