# OUR SUSTAINABLE GOALS

## **Maintaining good health & food safety**

Using natural & organic ingredients, these EU certified teas help to support a healthier lifestyle and are full of antioxidants and amino acids that boost the immune system, increasing the body's ability to safeguard itself from infections and even calm mental anxiety.

## **Reducing carbon footprint & wastages**

Keeping in mind to cut down packaging wastages (which is prevalent in the gifting industry), we have creatively designed our paper packaging to reduce up to 50% materials and carbon footprint. Our minimalistic packaging remains to be aesthetically pleasing, suitable as a great gift while being able to be flattened & act as a carrier at the same time.

FSC paper is one of our 1st preferred material when working with large scale bespoke packaging.
